

TERM 4- 5/6

Welcome back to what is for some families their final Term at Chelsea Primary School . This Term sees our year 5 students start to transition into our leadership roles , whilst our year 6's look towards graduation and transitioning into Secondary school.

Maths

This Term covers Multiplication, Division, Locations and transformation, problem solving and chance and data. Students will continue to develop maths reasoning through hands on experiences and open ended questioning.

Literacy

Continues to be provided through our CAFÉ program with students focusing on reading and comprehension tasks in whole class and small group focuses. Students will continue to express their writing through the writers notebook with a focus on narrative, recounts and persuasive techniques.

Inquiry

Students will learn about the consequences of financial decisions. They will apply economic and business reasoning and interpretation to solve problems and understand the behavior of participants in the economy. Students will understand how decisions will shape their future and think critically about their options.

Sport

This Term students will undertake Sailing, Surf lifesaving, swimming, Interschool sports, Triathlon Victoria program as well as in class based skill programs to improve coordination and visual special skills.

Wellbeing

Our value for this Term is Resilience with students undertaking sessions to help understand and practice the value with circle time and case study scenarios.
